

RFP-24-012224 ADDENDUM 2 Issued: January 18, 2024

1. In the RFP it notes selection will be based on “factors specified in the solicitation, including price.”

Is it the intent of the owner to solicit proposed prices for Items 1, 2 and 3 noted in the Scope of Services?

The response to a similar question contained in Addendum 1 is unclear. From that response it appears that the “price” factor could be based on hourly rates.

- A. The county is seeking a detail of the firm’s rates as noted in addendum 1. As the scope of services is a list of possible jobs but is subject to change based on need and negotiations, the county would not be requesting pricing for those specific items in the Scope of Services in any proposals.

2. With the weather conditions, we felt that it was important to get it shipped early. If any more addendums are released, will you accept electronic acknowledgement of them?

- A. We can accept electronic acknowledgement of addendums only. No other electronic submissions will be accepted.
